

KC RELICS

Clinic Management System

P R E S E N T A T I O N

Transforming Healthcare,
Innovations and Challenges in
Modern Medicine

Hello!

Welcome to the future of healthcare, where Vbagpack empowers private practitioners with seamless online experiences. Our mission is to enable healthcare professionals to effortlessly establish and manage their online presence. By leveraging KC RELICS expertise in eLearning and website creation, we introduce a holistic solution that extends to private practitioners, enabling them to connect with the online world.

About KC RELICS

KC Relics Pty Ltd is a digital ecosystem thriving on innovation, specializing in crafting user-friendly and visually appealing websites. We go beyond traditional web development, seamlessly blending technology with tailored solutions to deliver exceptional user experiences.

Empowering Practitioners: ●●● Healthcare Solution

KC Relics Pty Ltd is dedicated to empowering private practitioners by offering a comprehensive solution that includes a professionally designed website and an advanced clinic and patient management system. Through our expertise in website development and management solutions, we aim to enhance online visibility and streamline clinic operations. Welcome to a new era of efficiency and excellence in healthcare management with KC Relics.

What we stand for

> Our Commitment

KC Relics is committed to delivering unique web and app solutions that capture your story and vision. Guided by integrity, creativity, and quality, we create meaningful digital experiences that connect businesses with their customers and drive success through innovation.

> Our Mission

To create innovative web and app solutions that bring each client's unique story to life, while exceeding customer expectations and staying committed to integrity, creativity, and customer satisfaction.

> Vision:

To be the trusted partner for digital success, helping businesses tell their stories and build lasting connections through quality, innovation, and our core values.

Introducing Kivicare: Revolutionizing ... Clinic Management

Embarking on a new frontier in healthcare, KC Relics proudly introduces an advanced Clinic and Patient Management System. This cutting-edge solution is designed to streamline and elevate the operations of private practitioners, providing them with sophisticated tools for clinic management and patient care.

KC Relics is transforming healthcare by seamlessly incorporating an advanced clinic management system. This innovative approach empowers healthcare professionals with a comprehensive solution, crafting visually appealing websites and streamlining clinic management.

Features

1. Appointment Management:

- Advanced features, including recurring appointments.
- Group scheduling for efficient management.

3. Telemedicine Integration:

- Full-fledged telemedicine integration.
- Secure video calls for virtual consultations.
- Document sharing for remote care.

5. Billing and Invoicing:

- Comprehensive financial management.
- Insurance claims processing.
- Automated invoicing and integrated payment gateways.

2. Electronic Health Records (EHR):

- Enhanced EHR features.
- Customizable templates for personalized documentation.
- Multimedia storage capabilities.

4. Prescription Management:

- Advanced prescription management.
- Medication history tracking.
- Dosage reminders and e-prescribing capabilities.

6. Multi-User Access and Collaboration:

- Extensive multi-user access for seamless collaboration.
- Enhanced features for comprehensive team coordination.

Features

7. Customizable Templates:

- Extensive customization capabilities.
- Tailor the system to unique practice requirements.

8. Reporting and Analytics:

- Advanced analytics tools for in-depth practice performance analysis.
- Strategic decision-making support.

9. Patient Communication:

- Expanded patient communication features.
- Secure messaging for improved engagement.

...

Introducing our Clinic and Patient Management System: A Visual Insight.

To give you a glimpse of the transformative power of our Clinic and Patient Management System, we have included screenshots showcasing its intuitive interface and key features. These visuals offer a firsthand look at how our system streamlines clinic management and enhances patient care. Explore the screenshots below to witness the future of healthcare in action.

Dashboard

The Dashboard offers seamless control and oversight, allowing healthcare professionals to efficiently manage appointments, access electronic health records (EHR), and coordinate care through an intuitive interface.

The dashboard interface includes a sidebar with the following navigation items:

- Dashboard
- Appointments
- Encounters
- Patients
- Services
- Billing records **PRO**
- Settings

The main content area features four summary cards:

- TOTAL PATIENTS**: 0 (Total visited patients)
- TOTAL APPOINTMENTS**: 0 (Total Appointments)
- TOTAL TODAY APPOINTMENTS**: 0 (Total Today Appointments)
- TOTAL SERVICE**: 0 (Total service)

The main section is titled "Appointment" and includes a calendar for "October 2024". The calendar is currently set to "Month" view. A message at the bottom of the calendar reads: "Please use a valid license key. More Info".

Mon	Tue	Wed	Thu	Fri	Sat	Sun
30	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31	1	2	3

Appointments

The Appointment Dashboard provides seamless control, allowing healthcare professionals to efficiently schedule, manage, and track appointments through an intuitive interface, ensuring smooth patient care coordination.

The screenshot displays the Appointment Dashboard interface. On the left is a sidebar with navigation options: Dashboard, Appointments (selected), Encounters, Patients, Services, Billing records (PRO), and Settings. The main content area features a 'Filters' section with an '+ Apply filters' button and an 'Appointment' section with '+ Add appointment' button and tabs for ALL, UPCOMING, and PAST. Below this is a table with columns: PATIENT NAME, SERVICES, CHARGES, PAYMENT MODE, STATUS, and ACTION. A single appointment is listed for October 12, 2024, for 'Demopatient demo' (10:30 am - 11:00 am) at 'Clinic : KC RELICS'. The service is 'Teeth Whitening' with a charge of 'R300/-' and a 'Manual' payment mode. The status is 'BOOKED'. Action buttons include view, edit, delete, check in, and a trash icon. The footer shows pagination (Prev, 1, Next) and copyright information: © KiviCare - Clinic and Patient Management System (EHR).

PATIENT NAME	SERVICES	CHARGES	PAYMENT MODE	STATUS	ACTION
 October 12, 2024 Demopatient demo (10:30 am - 11:00 am) Clinic : KC RELICS Description : No records found	Teeth Whitening	R300/-	Manual	BOOKED	    

Encounters

The Encounter Dashboard offers seamless control, enabling healthcare professionals to efficiently manage patient interactions and track vital information through an intuitive interface, ensuring coordinated and effective care.

The screenshot displays the KiviCare Encounter Dashboard. On the left is a navigation sidebar with the KiviCare logo and menu items: Dashboard, Appointments, Encounters (with a dropdown arrow), Encounter List (highlighted in blue), Encounter Templates (with a PRO badge), Patients, Services, Billing records (with a PRO badge), and Settings.

The main content area is titled "Encounter details" and contains the following information:

- Name:** Demopatient demo
- Email:** demo6@email.com
- Encounter Date:** October 12, 2024
- Address:** 123 Demo street
- Clinic name:** KC RELICS
- Doctor name:** Demodoctor DEMO
- Description:** Discoloured teeth, Teeth Whitening required
- ACTIVE** status indicator

Below the details is a "Select Encounter Templates" section with a search bar and a lock icon, with a red "AVAILABLE IN PRO" badge.

The right side of the dashboard is divided into three columns: "Problems", "Observations", and "Notes".

- Problems:** 1. diccoloured teeth (with a red X icon)
- Observations:** 1. bad breath (with a red X icon)
- Notes:** 1. Successful whitening with no complications. Demo

At the bottom of these columns are input fields for "Select Problem", "Select Observation", and "Enter Notes", each with a "Note: Type and press enter to create new [problem/observation]" instruction and an "Add" button.

At the bottom of the main content area is a "Prescription" section with an "Email" button and an "Add Prescription" button. Below this is a table:

NAME	FREQUENCY	DURATION	ACTION
Sensodyne Brush twice a day	2	7 Day	 

Patients

The Patients Dashboard offers seamless control, allowing healthcare professionals to efficiently manage patient information and track interactions through an intuitive interface, ensuring coordinated and effective care for each individual.

 

-  Dashboard
-  Appointments
-  Encounters 
-  Encounter List
-  Encounter Templates PRO
-  **Patients**
-  Services

Why Choose Us!

Choosing KC Relics means selecting a dynamic partnership dedicated to empowering your healthcare practice. Our mission is to bridge the gap between vision and achievement through innovative solutions tailored to your unique needs. We embody our core values of unity, efficiency, and technological advancement in every aspect of our services, ensuring you benefit from cutting-edge solutions that enhance patient care.

With a user-centric approach, we prioritize creating systems and websites that are aesthetically pleasing and highly intuitive, guaranteeing a seamless experience for practitioners and patients alike. By opting for our comprehensive solutions, you gain access to everything from captivating websites to advanced clinic management systems.

Trust in our commitment to excellence, where efficiency and streamlined processes are at the forefront of our operations. Embrace the future of healthcare with KC Relics, where our mission, vision, and values converge to support your transformative journey into the digital era.

Benefits

Discover the benefits of our healthcare management system, designed to streamline operations and enhance patient care with automated scheduling, centralized records, and improved communication, all while offering scalability as your practice grows.

Streamlined Scheduling: Automate appointments to reduce no-shows and double bookings, optimizing time and patient flow.

Centralized Patient Records: Access comprehensive, up-to-date patient information in one place, minimizing errors and improving outcomes.

Enhanced Communication: Improve communication between teams and patients with integrated messaging for timely updates and follow-ups.

Data-Driven Insights: Utilize analytics for insights into patient trends and service usage, enabling informed decision-making.

User-Friendly Design: Enjoy an intuitive interface that simplifies navigation, reducing training time and enhancing user satisfaction.

Scalable Solutions: Easily adapt the system to accommodate practice growth, ensuring long-term success and flexibility.
